***Claims Allowed***

Claims 86-92, 101, and 103-105 are allowed.

***Reasons For Allowance***

Claims 86-92, 101, and 103-105 are allowed because the recited combination of elements of noninvasive ophthalmologic or dermatological procedure including forming pores with a device comprising a pore forming portion, delivery portion, and optical portion to apply a clarifying agent to a sclera or to tissue below the stratum corneum to form an area of clarified tissue, and using the optical portion non-invasively to deliver light through the conjunctiva to the sclera or using the device non-invasively proximal to the stratum corneum where the pore forming portion and the optical portion are coaxially arranged is not found nor fairly taught in the prior art of record, as argued by applicant and agreed to by examiner.
